E Davies Lister Home & Hospital - Waimate

"This testimonial gives me a chance to say a huge thank you to HHA for what they have done for Lister Home. When management decided that the wages should be done in house a couple of Resthomes recommended HHA to us. No one had ever done wages before and HHA were happy to give a free demonstration and supply us with a local business for a reference. I spent over half an hour talking to the reference supplied and they had been dealing with HHA for over ten years which I believe says a lot in itself. Having worked with a number of agencies/companies over the years I can say that this company is first class. There are not enough words on a page to say what a top class company they are. HHA should be proud of their employees helpfulness, speed, service, reliability, professionalism that they have. I am continually amazed at their dedication and knowledge and they continue to be a pleasure to talk to when we have queries. HHA have been so helpful to our needs especially in the first couple of months whilst we were still finding our feet. I would have no hesitation recommending HHA Associates to anyone who would like to start doing their own company wages. If all companies had employees like HHA the business world would be a perfect one.
