Keri Facoory-Allen Rylock Canterbury - Christchurch

We at Rylock Canterbury have used the IMS System coming up 3 years and I have no hesitation in singing it's praises. We were using another major programme which didn't calculate relevant pay rate correctly or allow ease of processing of our Holiday Pays for our year end shut down period. A whole days processing (8 hours or more) at this time has been shortened to 1 to 2 hours maximum. On a weekly basis it takes me 1/2 an hour to process our pays which includes importing into our accounting system - used to take all morning. HHA, Shirley and Julie worked extensively to find out what our requirements were and having a system set up correctly at the start thanks to them has made "pay day" a breeze. I therefore have no problem with recommending HHA as a company that if I have any queries feel confident to call the team and ask for their advice."
