Anne Hoskins, South Island Organ Company Limited - Timaru

"I would like to thank Shirley and Theresa at HHA Associates Limited for their help in getting us up and running with IMS Payroll Partner. We were referred to them by IMS early in 2010 when making enquiries about the program. Shirley very professionally demonstrated the program to us in our factory office and helped us ascertain that it could do everything we needed, would be easy to use and help would be at hand if needed. The after sale service offered by HHA Associates Limited was just superb. Not only did Shirley install the software for us, she also guided us through the setting up of our employees' data and transfer of earnings history and showed us how to process our weekly payroll in a quick, efficient and accurate way. On a couple of occasions when we needed support, it was delivered in an easy to understand and timely manner. I have recently attended a payroll training session at HHA Associates Limited and picked up a number of useful tips from the presentation."
