### **Debbie Cook, Thompsons Engineering (2002) Limited**

"HHA introduced us to HS Compliance Manager just over a year ago and since then I have found it a very useful programme for administering Health & Safety within our company. The programme is easy to use with features such as calendar, actions which are quick daily reference checks, a library with built in resources, an emailing notification system and automatic employee updating from our payroll system. I have found the more I use HS Compliance Manager the more useful it becomes to assist with Health & Safety administration".
